

Electric Vehicle Charge Network Program

About the Program

Pacific Gas and Electric Company (PG&E) offers the Electric Vehicle (EV) Charge Network Program to multifamily property owners who wish to install EV chargers. Participants can:

- ✓ Save between 60-80% of total project cost, valued at approximately \$100,000
- ✓ Take advantage of additional program rebates and incentives (\$575 to \$2,300 per port)
- ✓ Benefit from a streamlined design, permitting, and construction process
- ✓ Stay current with market demand and attract residents, especially as EV charging becomes an expected amenity
